### Notes for guidance:

Moulin 5 is considered the best room, followed by Moulin 2, but Moulin 1 and 4 close behind. Moulin 3 is a smaller room with a small bathroom. Moulin 6 is more suitable for children. Moulin 7 is large, with a big bathroom, but is just off the kitchen, so best for early risers or those with mobility problems.

In the Grange, the rooms on the ground floor are larger, Grange 3 has a bath in the bedroom, but can be curtained off. Grange 4 is a very compact double and often used as a single.

**Advanced Notice is appreciated, so as we know how to make up the rooms that can be doubles or twins**
